Dynamic Web Development Report

Week I

What is the project about?

+ This system is about Car rental , so people can rent car from this system and get all the information to rent car from this website.

Why we choose this topic?

+ We choose this topic for 2 main reasons

- 1, Problem: Difficult to find rental car company and spend a lot of time on it
- 2, solution: this system give many advantages such as save more time, can get more information about rent car, can book online, can choose kind of transportation we like.

What is our goal of making this happen?

Our Goal:

This website provides people can find kind of car that they want to rent for their using such for their trip or their business , also people easy to know more about rent car information such a price of each cars . The main goal is that to make people easy to find car for rent by this website.

+ Great ideas why should rent a car?

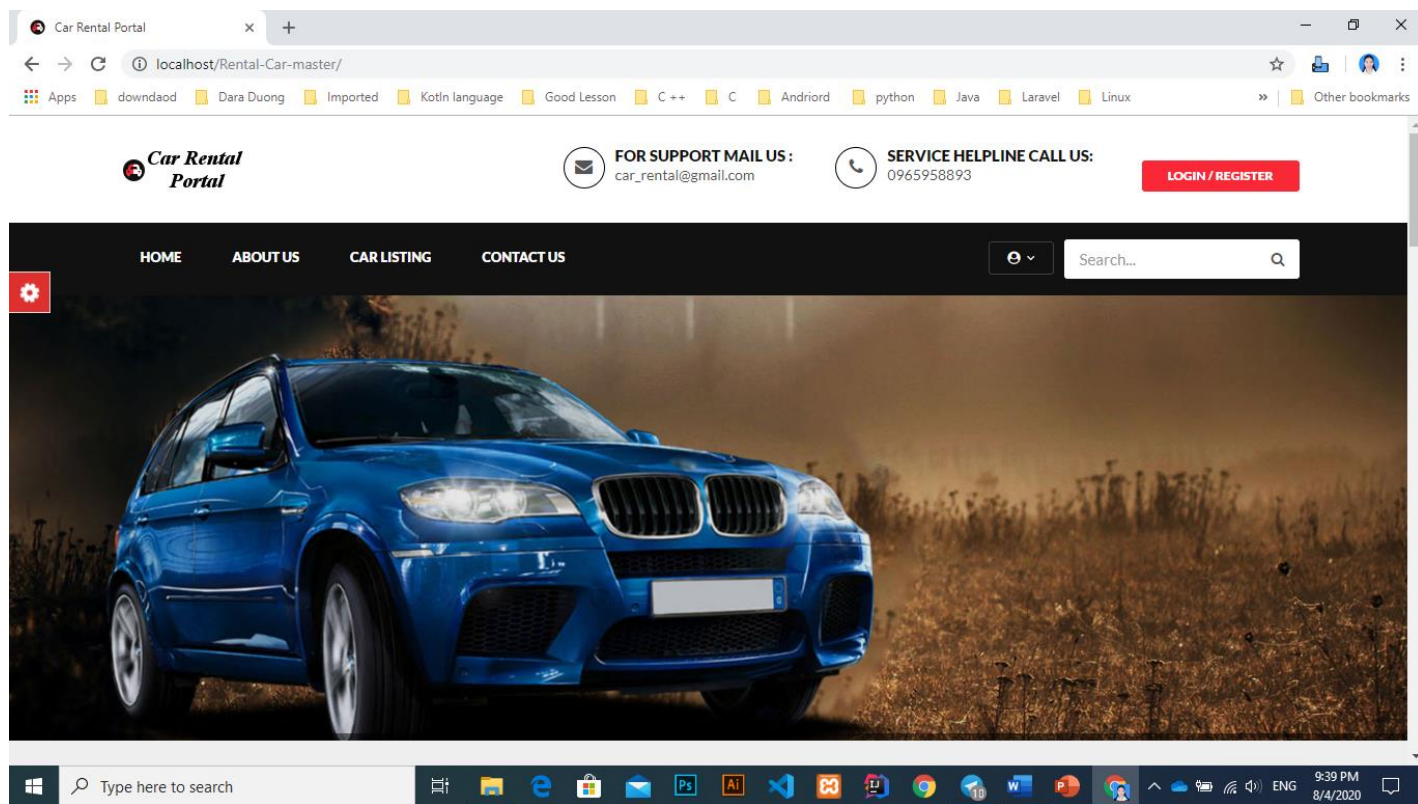

- ✓ Rent an automatic car and discover driving
- ✓ Rent a hybrid car and save on parking
- ✓ Rent a car for each situation
 - Business meeting
 - Travelling with friends
 - Travelling with children
 - Rent a car, and don't look like a tourist
 - I don't want to pay for Sat-Nav roaming
 - I don't like people know I'm a tourist
 - It's very easy to find a car rental office

Week II

We updated our static web to become a dynamic web by using PHP connect with MYSQL and update more standard interface.
